

Request for addition of entries to the selection lists

Please return by email
to the VERS office:
info@vpi-vers.eu

If a desired value is not contained in the selection list and should be added by VERS, this form must be completed in full:

Name of the company / workshop:	
Location / address:	
Email address:	
Telephone no.:	

Tab (e.g. master data):	
Field (e.g. keeper):	
Value to be added:	

After receipt of the request, it will be checked by VERS, and if accepted, the value will be added to the selection list.

Because the selection lists are available to all users, values are only accepted that apply to all users. In the case of specific values that are only relevant to a few users, the free text field function should be used.
